

Help Us Protect Our Planet

At our facilities (TUI Oceanis Blue Hotel and Utopia Blu Hotel), we care deeply about the environment and our beautiful island of Kos. As part of our commitment to sustainability, we invite you to join us in reducing our use of natural resources during your stay.

Water is precious

- Please turn off the tap while brushing your teeth or shaving.
- Reuse your towels by hanging them up. If you'd like them changed, please leave them on the floor.
- Shorter showers help save water and energy!

Save energy

- Turn off lights, TV, and air conditioning when leaving the room.
- Keep doors and windows closed when using the air conditioner.
- For optimal comfort and energy efficiency, please set your A/C between 24–26°C. Lower settings lead to excessive energy use without added benefit.
- Unplug chargers when not in use—they still consume electricity.

Reduce waste

- Use the recycling bin in your room for paper, plastic, or cans.
- Avoid using single-use plastic whenever possible.
- Take only what you need at the buffet to avoid food waste.

Together we can make a difference

Your small actions help us preserve local resources and reduce our environmental footprint. Thank you for supporting our sustainability journey.

If you'd like to learn more about our green practices, please ask Reception or visit our Sustainability Info Point in the lobby.
